

```
import SwiftUI
import PlaygroundSupport

struct MyView: View {

    var body: some View {
        NavigationView{
            Text("side")
            Text("panel")
        }
    }

}

PlaygroundPage.current.setLiveView(MyView())
```
