

```
import SwiftUI
import PlaygroundSupport

struct MyView: View {

    var body: some View {
        List {

            Text("Wash the car")

            Text("Vacuum house")

            Text("Pick up kids from school bus @ 3pm")

            Text("Auction the kids on eBay")

            Text("Order Pizza for dinner")

        }
    }
}

let view = MyView()
PlaygroundPage.current.setLiveView(view)
```
